# Welcome to AllerWeltHaus

We are a cultural and educational centre. We are independent of any political party, denomination, and ideology.

We welcome all people regardless of age, social background, ethnicity, nationality, gender and gender identity, sexual orientation, physical and mental abilities, religion, and ideology.

### This is what we stand for

Many committed people and over 20 socially committed groups meet here, for example, Terre des Hommes, Amnesty International, The Hagen Peace Sign, ecological initiatives, leisure groups, etc.

With them we campaign for tolerance, peace, and international understanding, for the implementation of human rights and agenda 2030, for social justice, for sustainability, for fair trade, ecologically sensible developments and much more.

# Commitment to One World

A fair and peaceful world starts with yourself and at your own doorstep.

Anyone who wants to get involved in this will be supported at AllerWeltHaus, for example, by our one-world regional promoter. She develops and oversees many interesting projects in line with the 17 sustainability goals of the 2030 agenda adopted by the United Nations, among other things in the areas of fair trade, global learning, Fair Trade Town, etc.

Our extensive public relations and home page show how diverse the topics are.

# Cultural eventsand projects

Important information on developmental issues is provided in our diverse events, campaigns, projects, musical events, seminars, workshops, lectures, festivals, exhibitions, and training courses. They help to bridge with other cultures and instigate curiosity about cultural vibrancy. For current events, refer to home page. Many are free or "Pay for what you want".

# World shopand fair trade

Our delectable chocolates, coffees, teas & spices, exotic groceries, wines, high-quality handicrafts, decorations, clothing, and paper products - of course, in fair trade quality - contribute to fair living and working conditions for smallholders and cooperatives worldwide. In our world shop, everyone can contribute to this with their purchase.

Further product information can be found under:

www.weltladen.de and www.fairtrade-deutschland.de

# CaféBistroMundial

Our restaurant is a favoured meeting place where guests can enjoy delicious dishes from all over the world, home-made cakes, coffee, tea, etc. The menu changes every day and are consistently vegetarian, some are vegan and where possible, the ingredients are organic and obtained by fair trade means. We offer cooking courses, a catering service and participate in projects. Our idyllic terrace in the park is particularly attractive.
